PROFESSIONAL SUMMARY

Self-taught front-end developer with hands-on experience in React.js, Redux, JavaScript (ES6+), and building responsive, interactive UIs. Skilled in integrating payment gateways such as Stripe and passionate about delivering seamless user experiences and real-time functionality. Having a great understanding of translating complex requirements into clean and maintainable code with a focus on performance and usability. I would like to join a collaborative development team where I can apply my skills and grow as a developer.

TECHNICAL SKILLS

- **Frontend**: React.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Material UI, Redux, Redux Toolkit
- **Payment Integration**: Stripe API, PayPal SDK, Razorpay, Checkout.com
- **Real-time Technologies**: Firebase Realtime Database, Supabase
- **Backend Exposure**: Firebase, Supabase
- **Tools & DevOps**: Git, GitHub, Vercel, Netlify, Webpack, Vite, CI/CD
- **Testing**: Jest, React Testing Library

EXPERIENCE

•Front End Developer *Jan 2024 - Present*

Devgnan | Hyderabad

- Built and contributed to real-time React applications using Material UI, Bootstrap, and TailwindCSS.
- Integrated REST APIs and improved component performance by 25% .
- Worked with REST APIs to dynamically render data and utilized localStorage.
- Used Redux for global state management and Redux DevTools for debugging and monitoring app state.
- Debugged application logic efficiently using Chrome DevTools and browser console.
- Gained hands-on experience in writing clean, maintainable HTML/CSS and using browser console.

PROJECTS

–JobBoardPro – Job Board & Resume Builder *Feb 2025 - Mar 2025*

Front-End React Application Github | Live Demo

- * Developed a modern job board platform with advanced filtering, bookmarking, and resume building functionality.
- * Implemented dynamic resume creation with PDF export using html2pdf.js, supporting multiple saved resumes.
- * Built an intuitive UI for job listings, including company logos, job descriptions, and application links. Integrated category-wise job filtering and search functionality for streamlined job discovery.
- * Created a right-side drawer system with tabbed navigation for dynamically adding categorized widgets to a dashboard. Utilized Redux Toolkit for efficient state management across jobs, resumes, and dashboard components.
- * Tech Stack: React.js, Redux Toolkit, React Router, Bootstrap, Tailwind CSS, html2pdf.js, localStorage

–FoodFusion – Food Delivery Application with Stripe Integration *Jan 2025 - Feb 2025*

Front-End React Application Github | Live Demo

- * Built a multi-page food delivery platform with restaurant menus, item details, and a dynamic cart using React Router and localStorage.
- * Designed responsive UI components for category filtering, item search, and seamless navigation across restaurant pages.
- * Integrated Stripe Checkout for secure online payments and tested mock transactions in a front-end-only setup.
- * Developed login/signup pages with form validation and managed user sessions using localStorage.
- * Tech Stack: React.js, Redux Toolkit, React Router, Bootstrap, Stripe Checkout, localStorage
