

ASHOK CHAVALA

Hyderabad, India | ashokchavala46@gmail.com

Education

Bachelor of Technology, Electrical and Electronics

2023

NBKR institute of science and technology

Experience

Frontend Developer

02/2025 to Current

DevGnan

Hyderabad, India

- Contributed to the development of front-end features for live client projects, ensuring seamless functionality and modern UI design.
- Developed responsive and user-friendly web interfaces using React, Material UI, and CSS best practices for cross-device compatibility.
- Optimized component performance and code structure to improve loading speed and maintainability across multiple pages.
- Conducted API integrations and implemented dynamic data handling using REST APIs to enhance user interaction and real-time updates.

Projects

Smart Budget Application

Developed a personal finance management web app to track expenses, set budgets, and visualize spending patterns using React and Material UI. Integrated REST APIs and optimized UI for a smooth, responsive user experience.

TravelEase Website

Built a responsive travel booking platform with React to explore destinations, view packages, and manage trips. Contributed to front-end development, improving UI flow and optimizing layout for better accessibility across devices.

Achievements

- Created and published educational content and college experiences, engaging 100k+ student community on geeks for geeks platform
- Achieved 5th position in a college-level Front end competition by building a responsive and visually appealing front-end project with in given time.
- Actively contributed to React-based open source projects, improving UI components, fixing bugs, and collaborating with developers.
